## DETAILED ACTION

### *Specification*

1. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). In the preliminary amendment filed June 19, 2002, applicant deleted the previously filed Abstract, but failed to provide a substitute Abstract with the amendment of June 19, 2002. An abstract on a separate sheet is required.

2. The disclosure is objected to because of the following informalities: paragraph 5, Summary of the Invention (from Substitute Specification), reference is made to the method of claim 1 and "subclaims" for the summary of the invention. Applicant is referred to MPEP § 608.01(d). A brief summary or general statement of the invention as set forth in 37 CFR 1.73. The summary is separate and distinct from the abstract and is directed toward the invention rather than the disclosure as a whole. The summary may point out the advantages of the invention or how it solves problems previously existent in the prior art (and preferably indicated in the Background of the Invention). In chemical cases it should point out in general terms the utility of the invention. If possible, the nature and gist of the invention or the inventive concept should be set forth. Objects of the invention should be treated briefly and only to the extent that they contribute to an understanding of the invention.

Appropriate correction is required.

***Allowable Subject Matter***

3. Claims 18-43 are allowed.

***Conclusion***
